The Mummy

The curses linked to the mummies of Pharaonic Egypt's mummies have captivated dozens of artists from the most diverse disciplines. From Théophile Gautier to Anne Rice, from Karl Freund to Terence Fisher, they have succumbed to the exoticism and mystery of Egyptian curses and their mummies. Us too... And you?

Frankenstein

Mary W. Shelley's "Frankenstein or The Modern Prometheus" is the very first science fiction work, in spite of being also a horror novel. Still tasting its 200 anniversary, we open this set where you can see several characters from the novel. However, its main character is not Dr. Victor Frankenstein, but the monster he created.

The Body Snatcher

When the dead disappear from their graves... A medical student from the United Kingdom becomes involved in the illegal business of desecrating graves for the use of corpses in medical studies. A sinister, disturbing and macabre Victorian atmosphere that will give you chills on the disturbing night. A famous True Crime case turned into a literary masterpiece by R.L. Stevenson.
